E-Halle Basel New Space

Hall 1.2 = 900 m² & Hall 1.3 = 900 m²

The 'Space for People & Space for Emotions' concept stands for the development and revitalisation of historic buildings. Once forgotten structures are given a new lease of life, and can begin to enchant visitors with their phenomenal, untouched atmosphere again.

We believe that history should be lived; this area is a huge part of Basel's history, and should therefore be given a new lease of life so it can be remembered by this generation for years to come.

From 2016, the halls will be home to new spaces for culture, art, cuisine & catering. The former factory halls are located in the middle of an area with a unique atmosphere of urban density not found anywhere else in Pratteln.

Here, where industry boomed and the area developed, the factory halls are a historic industrial memorial for a range of projects.

The 2 halls each measure in at 900m² and feature unique dimensions, characteristics and atmosphere. This innovative location provides companies, organisations, associations and private individuals with the perfect space to host events & conventions as well as promote art, culture & cuisine in the region.

The architecture of these industrial halls is absolutely unique in the Basel region, so only building work that was absolutely necessary has been carried out.
